

Appendix B – Equivalent countries and territories

E

As set out in the *AML/CFT/CPF Handbook* we do not maintain a list of equivalent countries and territories.

Guidance on equivalent countries and territories and determining equivalence is set out in sections 1.9.2 and 1.9.3 of the *AML/CFT/CPF Handbook* respectively.

To assist *supervised persons* in their determination we have set out below links to potential sources of additional information which may be useful in determining equivalence. These are not intended to be exhaustive, nor are they placed in any order of priority. Independent research and judgement will be expected to cater for the requirements in the individual case.
