# 2 General guidance

## 2.1 Scope

- 2.1.1 This guidance document relates to the Excel workbook in Section II of the 2024 risk-based supervision data collection exercise which collects data in respect of Jersey Private Funds (JPFs).
- 2.1.2 The JPF is a financial services business pursuant to Schedule 2, Part 2, paragraphs 9 of the Proceeds of Crime (Jersey) Law 1999 (POC) and is subject to the requirements of the Money Laundering (Jersey) Order 2008 (MLO).
- 2.1.3 A JPF, being a relevant person under the MLO:
- (a) is required to have an MLCO and an MLRO;
  - (b) should have obtained Customer Due Diligence (CDD) on all its investors (its customers), their beneficial owners and controllers, and on any third parties upon whose behalf the investor acts and the beneficial owners and controllers of those third parties.
- 2.1.4 The JFSC is required to supervise the JPF's compliance with AML/CFT/CPF requirements under the Proceeds of Crime (Supervisory Bodies) (Jersey) Law 2008 (SBL).

## 2.2 Data collected

- 2.2.1 Funds remain largely excluded from the Section I data collection exercise, however, as the JFSC is required to supervise JPFs the JFSC requires data so that it can continue to risk profile the JPFs and their designated service providers.
- 2.2.2 Consequently, data is again being requested on the customers (investors) of the JPFs. The data is being collected from the JPF's designated service provider.

## 2.3 Excel workbook

- 2.3.1 The Excel workbook that the designated service provider needs to complete in relation to each of the JPFs that it acts for (using one line for each JPF) comprises 11 spreadsheets, as follows:
  - (a) ZC1: Fund compliance data
  - (b) ZC2: Asset compliance data
  - (c) ZC3: Investor data
  - (d) ZC4: Beneficial owner, controller and third party data
  - (e) ZC5: Fund concessions data

Country response spreadsheets for specific questions

- (f) ZC3(a) Countries of investors
- (g) ZC3(f) Countries of PEPs
- (h) ZC4(a) Countries of beneficial owners and controllers of investors, where the investor is not an individual
- (i) ZC4(b) Countries of third parties on whose behalf the investor acts.

For information

- (j) ZC6: Freetext Explanations
  - (k) List of Questions
- 2.3.2 The JFSC recognises that printing each spreadsheet to determine the data requirements is not possible due to the construct of the document, therefore the last spreadsheet in the Excel workbook contains a list of the questions for printing.

## 2.4 Jersey Private Fund customers of the designated service provider

- 2.4.1 The JFSC is building a body of data in relation to JPFs through the designated service provider. This is the JFSC's principal JPF connection, and is a position required by the JPF Guide.
- 2.4.2 The JFSC expects the designated service provider providing services to the JPF to have conducted a customer risk assessment on the JPF. It is noted that the designated service provider must assume responsibility for "ensuring compliance with all necessary Jersey AML/CFT/CPF requirements applicable to the JPF"<sup>ii</sup> and has to give a declaration to this effect. The JFSC would expect the designated service provider, as a minimum, to be able to complete sections ZC1 and ZC2.
- 2.4.3 Where the designated service provider:
  - (a) provides the MLCO of the JPF; and/or
  - (b) is delegated the responsibility to collate CDD on the JPF's investors,

the JFSC would expect the designated service provider to be able to complete the whole of the JPF workbook.

- 2.4.4 If another Jersey financial services business provides the services listed in 2.4.3 then please contact the JFSC **by no later than 1 February 2025** providing alternative contact details for this financial services business. Each JPF has only been listed once in the workbook of a designated service provider therefore, unless the JFSC is told that there is another Jersey financial services business who should be providing the information requested, then the designated service provider who has the JPF named in its workbook will need to provide the information.
- 2.4.5 If there is no other Jersey financial services business (or no alternative contact is provided by 1 February 2025) then the JFSC requests the designated service provider to liaise with each of the JPFs it acts for to provide the information in the JPF workbook. In the event that the designated service provider is not able to provide any part of the data requested in relation to the JPF then an explanation will need to be provided to the JFSC.
- 2.4.6 The data collected through responses to ZC3 to ZC5 relates to the customers of the JPF i.e. its investors and their beneficial owners and controllers and third parties for whom the investors in the JPF act.

## 2.5 Data reporting period

- 2.5.1 The Section II data reporting period is 1/1/2024 to 31/12/2024.
- 2.5.2 Generally, the data should be provided as at the end of the reporting period (31/12/2024 or closest business day) unless otherwise specified.

## 2.6 Data submission

- 2.6.1 Whilst we will be collecting the same data as in previous years, designated service providers are still recommended to consider the data request as soon as possible. It may take some time to gather the data requested and the deadline for submission is **17:00 on 11 April 2025**.
- 2.6.2 Each designated service provider will receive an email sent to their myJFSC data collection contact indicating that there are documents available for download through myJFSC.
- 2.6.3 The myJFSC data collection contact will be able to download the JPF Excel workbook which will be populated with the names of the JPFs that the JFSC's records show the designated service provider provides services to.
- 2.6.4 Once the JPF Excel workbook has been downloaded it can be forwarded to the relevant persons within the designated service provider for completion. However, please note that only one consolidated completed JPF Excel workbook per designated service provider should be submitted through the JFSC Portal by the JFSC Portal contact.
- 2.6.5 Notwithstanding who has responsibility for submitting the data, the governing body of the designated service provider and the governing body of the JPF should have oversight of the content of the submission made on their behalf.
- 2.6.6 With the exception of spreadsheet ZC6- *Freetext Explanations*, all parts of each question should be answered. Consequently, where there is a nil return, insert a "0" where relevant, in each row.

- 2.6.7 Where responses to any questions require further explanation please provide this on the spreadsheet *ZC6- Freetext Explanations*.
- 2.6.8 No answers are expected for JPFs that are in liquidation, liquidated, terminating or terminated or where the designated service provider has ceased to act (subject to 2.4.4 and 2.4.5 above). Please use *ZC6: Freetext Explanations* – identifying the JPF and providing an explanation of why no answers are being provided i.e. terminated/liquidated/ceased to act.

## 2.7 Integrity checking your submission

- 2.7.1 For each JPF, the following should add to the same total number, as the questions analyse the total number of investors:
  - (a) Type of investors: sum of ZC3(b)(i) to (iii)
  - (b) By risk category: sum of ZC3(c)(i)(i) to (iii)

This might be the Investment Manager, Distributor or one key individual etc. Factors that may indicate an entity is the Promoter/Instigator may include:</p> <ul style="list-style-type: none"> <li>a) The name of the JPF is linked to the entity.</li> <li>b) If the entity had withdrawn from the initial proposal, the JPF would not have gone ahead (unlike an administrator that can be replaced).</li> <li>c) The majority of investors are being put into the JPF by the entity.</li> <li>d) The entity is responsible for the instructions to set up the JPF.</li> <li>e) The JPF is the “brainchild” of the entity.</li> <li>f) The entity is providing the initial directors to the JPF’s governing body.</li> <li>g) The entity owns the management shares/otherwise has control of the governing body of the JPF.</li> <li>h) The entity is financing the initial set up of the JPF (which it may or may not get back).</li> <li>i) The entity has devised the investment advice, investment policy and investment strategy of the JPF.</li> <li>j) The entity gets a performance fee rather than a fixed fee.</li> </ul> <p>The JFSC Promoter Policy<sup>ii</sup> does not apply to JPFs but all funds will normally have a promoter or instigator.</p> |

| <b>ZC2(a)</b>                            | <p><b>If the Investment Policy Code is E10, S06 or S07, please explain, in 5 words or less, the investment policy / asset class of the JPF. The list of Codes are the same as those required in the “JPF application form”.</b></p> <p>These 3 codes are non-specific therefore please provide a brief 5 word description of what the JPF invests in.</p> <p>e.g. Art, Fintech etc.</p>   |
| <b>ZC2(b)</b>                            | <p><b>Net Asset Value of the JPF in GBP at year end (31 December 2024):</b></p> <p>Please provide the Net Asset Value of the JPF as at 31 December 2024 in sterling.</p>  |
| <b>ZC2(c)</b>                            | <p><b>Please indicate in which countries the JPF holds assets amounting to 10% or more of its Net Asset Value as at year end (31 December 2024).</b></p> <p><b>Select up to 10 countries from the drop down menu.</b></p> <p>Use the drop down menu to select up to 10 countries where 10% or more of the JPF’s assets are held. If the JPF has many investments in different jurisdictions then it may not have as much as 10% in any one jurisdiction, so will have to leave this question blank. Some JPFs may only provide information on 2 or 3 countries because their holdings in other countries are less than 10%. If a JPF has a holding of more than 10% e.g. 50% don’t put the same country five times, just put it once.</p> <p>This a simple measure, based on analysis, please choose the most appropriate jurisdiction for each of the assets held. For example, this may be as simple as looking at the jurisdiction of the issuer of securities held. However, if there is no specific jurisdiction that can be associated with the asset then do not include that asset.</p> |

| <b>Section ZC2–Asset Compliance Data</b> |  |
|  | If a JPF holds an asset through an investment holding company in Luxembourg such as a mine in an African country, do not put the jurisdiction of the holding company, put the country where the asset is – in this case the African country. |

Consequently, this question is designed to elicit the total number of concessions applied to investors by the JPF. It is acknowledged that more than one concession may be utilised for the same investor.</p> <p>The response to this question should equal the sum of ZC5(c)(i) to (ix).</p>   |
| <b>ZC5(b)</b>                       | <p><b>Number of investors where delayed verification in line with Article 13(4) of the MLO was applied</b></p> <p>In accordance with Article 13(4) of the Money Laundering Order a JPF is permitted to delay verifying the identity of an investor where (finding out the identity of the investor must not be delayed):</p> <ul style="list-style-type: none"> <li>a) it is necessary not to interrupt the normal course of business;</li> <li>b) there is little risk of money laundering or financing of terrorism occurring as a result of obtaining evidence of identity after establishing the relationship; and</li> <li>c) evidence of identity is obtained as soon as reasonably practicable.</li> </ul> <p>Question <b>ZC5(b)</b> collects data about the <u>number of investors where delayed verification</u> in line with Article 13(4) of the Money Laundering Order has been applied.</p> <p>If a JPF has not delayed the verification of any investors identity during the data reporting period, please respond with “0”.</p> |

**ZC5(c)**

**In relation to the answer to ZC5(c) please indicate the numbers of individuals / entities to whom each of the concessions apply**

|   |                            |
|---|----------------------------|
| <b>Reliance</b>   | <b>Articles 16 and 16A</b> |
| <b>Exemptions from applying third party identification requirements</b> | <b>Articles 17B-D</b>      |
| <b>Other CDD exemptions</b>   | <b>Article 18</b>          |

This question is designed to analyse the number of types of concessions applied to investors, their beneficial owners and controllers and third parties for whom the investor acts during the CDD process.

**Reliance – Articles 16 and 16A**

In line with Article 16 of the Money Laundering Order, reliance may be placed on an obliged person only where the six conditions, explained in section 5.1 of the AML/CFT/CPF Handbook, are met. In practice, this has the effect of:

- a) limiting the number of obliged persons that can be relied upon; and
- b) requiring the basis for placing reliance to be recorded in writing.

In line with Article 16A of the Money Laundering Order, reliance may be placed on an obliged person that is part of the same financial group only where the six conditions, explained in section 5.2 of the AML/CFT/CPF Handbook, are met. The effect of this is similar to Article 16.

This question is not seeking the number of entities upon which reliance is placed it is seeking **the number of investors** where reliance has been used in the CDD process. This might be where reliance is used in relation to the investor or any beneficial owners or controllers of the investor. For example, if reliance is used in relation to both the investor and its 4 beneficial owners and controllers, then this would count as 1 investor.

**Exemptions from applying third party identification requirements – MLO Articles 17B-D**

In line with Articles 17B-D of the Money Laundering Order, a JPF may apply CDD exemptions and not find out the identity of a third party on whose behalf a customer acts or obtain evidence of identity. The application of the exemptions is dependent upon the status of the customer and in some circumstances the JPF.

The JPF may apply exemption from applying third party identification requirements in 4 circumstances if the fund has reasonable grounds for believing that its investor is:

- a) regulated and supervised by the JFSC for AML/CFT/CPF purposes;
- b) a person who carries on equivalent business (refer to Section 1.7 of the AML/CFT/CPF Handbook); or
- c) a person who is wholly-owned by a person listed above and meets certain conditions.

|                              | <p>The application of exemptions from third party identification measures is also always subject to one or more conditions (depending on the particular case). In practice, these provisions have the effect of:</p> <ul style="list-style-type: none"> <li>a) limiting the number of investors to which exemptions can be applied; and</li> <li>b) requiring the basis for applying exemptions to be recorded in writing.</li> </ul> <p>The four circumstances are:</p> <ul style="list-style-type: none"> <li>a) Article 17B(1) Customer/or parent of customer is a JFSC regulated (or equivalent business) deposit-taker, fund, insurer, investment business or fund services business</li> <li>b) Articles 17C(1)(a) and 17C(1)(b) Customer is or carries on business in respect of an Unregulated Fund or non-Public Fund (or equivalent business)</li> <li>c) Article 17C(1)(c)(i) where the relevant person is a Deposit-taker and investor is a TCB (or equivalent business)</li> <li>d) Article 17C(1)(d) where the relevant person is a Deposit-taker and investor is a lawyer (or equivalent business)</li> </ul> <p>This question is seeking <b>the number of investors</b> where third parties who it acts for have not been identified pursuant to Articles 17B-D. For example 1 regulated bank (the investor) acts on behalf of 10 clients. The number of investors to whom this concession relates is 1 and should be reported as 1.</p> <p><b>Further CDD exemptions – Article 18</b></p> <p>Article 18 of the Money Laundering Order sets out a number of very specific circumstances where a fund may be able to apply further CDD exemptions to its investors. See sections 7.13 - 7.16 of the AML/CFT/CPF Handbook for further guidance. Not all of these CDD exemptions have the same effect. Investors to whom CDD exemptions have been applied could include:</p> <ul style="list-style-type: none"> <li>a) Article 18(2) – pension, superannuation, employee benefit, share option or similar scheme</li> <li>b) Article 18(1) – insurance policies</li> <li>c) Article 18(4) – public authorities, companies listed on an IOSCO-compliant market or regulated market</li> <li>d) Article 18(3) – regulated businesses or equivalent</li> <li>e) Article 18(5) – employees of regulated businesses or equivalent</li> </ul> <p>This question is seeking <b>the number of investors</b> to whom CDD exemptions have been applied pursuant to Article 18.</p> |
